A man with a beard and sunglasses, wearing a red baseball cap with a logo and a white t-shirt that says "MIDWEST KIDS" in red and blue lettering, is sitting on a light blue inflatable chair. He is smiling and looking to his right. He is wearing red sneakers with white laces and black socks. He has a cross necklace and a tattoo on his left arm. He is holding a black smartphone in his left hand. In the background, there are other people, including a woman in a black top and sunglasses, and a man in a black top and sunglasses. The setting appears to be an outdoor event or festival with a blue chain-link fence in the background.

***"Furniture is more than a place to sit, it evokes emotion.
It should draw people together no matter the environment.
Bringing people together is how things get done.
Cheers to collaboration!"***

**Founders Pieter Jamart
& Michel Sels established
the SIXINCH® Brand in 2003.**

Roots

Founded in Belgium in 2003 by Pieter Jamart and Michel Sels, SIXINCH was born from a passion for innovative materials and progressive design. In 2013, Peter and Michel partnered with Wieland Designs, a well-respected company in the furniture industry, and expanded the footprint for one of the most talked about furniture brands in the world. The name SIXINCH comes from the space between our ears, a mere 150 mm wide, or six inches.

Customs

The design flexibility of SIXINCH coated foam is almost limitless, and that's exactly why this technique is perfect for custom projects. There are no molding or set up costs. We start from a large foam bun which is CNC cut into the desired shape. Our FlexPlus™ coating is applied and the entire color spectrum is at your disposal. When completed, your product is a flexible, weather-resistant, seamless design statement.

5

Mission

We build iconic environments that are distinctly original. Our team of designers and engineers are detailed to a fault. We have the ability to not only “dream” but also “do”. Every piece that bears the SIXINCH label is held to the highest standards in the furniture industry.

Brand Promise

We offer our customers endless creativity, backed by generations of industry experience. We deliver through quality, creativity and flexibility. We're here to help you create, entertain and work (a little).

Shown Above: Simplon Chaise & Chair, Mint Table, PillWOW

Fabric is in our DNA.

With more than 30 years in the industry, we know what it takes to do upholstery right. We challenge you to find a better upholsterer in the industry. Our thread artisans go through extensive training, and by the time they graduate, they're ready to hand deliver a top notch product.

Pick from our standard offering of textiles or choose your own. No matter what route you decide to go, your client is bound to be ecstatic!

Define your Space.

Finding your ideal spot to work in open-space environments can be challenging. These spaces are ideal for communication and collaboration but also interrupt work flow and productivity. At SIXINCH®, we don't like frustrated, unproductive people, so we work hard to provide positive solutions for these types of environments. We consistently develop new ways to ignite work flow and inspire high-levels of creativity.

Shown Above: Cliffy 6000, Steen Pouf & Table

SIXINCH®
Designers

Jason Bird

Luxxbox founder Jason Bird uses unconventional materials, colors and local production techniques to push boundaries and make a statement in style.

10

Bram Boo

By disturbing the usual rules, Bram Boo aspires to create new ideas and emotions with a focus on function and aesthetic values.

Alberto Caramello

A professor at IAAD University of Design in Turin, Alberto Caramello has worked with several companies and agencies around the world.

Pieter Jamart

Pieter studied Interior and furniture design at Luca's fay'd herbe academy Mechelen Belgium. Passionate about the possibility's of furniture and foam, Pieter graduated in 2002 and immediately started SIXINCH with his business partner Michel Sels.

Jan De Cuyper

Jan De Cuyper lives and works in Antwerp, Belgium. He has a Bachelors of Interior Design from the Thomas More University College, Mechelen.

David Fox

David has acquired some of the highest ranking international design awards-Good Design, Red Dot. His designs promote timeless design features, with a heavy emphasis on refinement and proportion.

12

Pieter Maes

Since graduating from the Design Academy Eindhoven in 2004, Pieter has been the catalyst for numerous product, architectural, interior and furniture design projects.

Karim Rashid

Karim Rashid is one of the most prolific designers of his generation. Over 3000 designs in production, over 300 awards and working in over 40 countries attest to Karim's legend of design.

Rainer Mutsch

Studio Rainer Mutsch is a multi-disciplinary design studio based in Vienna. Several of Rainer's works have been acquired by international museums for their permanent collections and archives.

Mac Stopa

Mac Stopa is an award winning architect and designer, whose work spans several design disciplines: architecture, interior design, industrial design, art, graphic design, and fashion.

SIXINCH® North America

SIXINCH® features an in-house design and engineering team, along with global partners that are headquartered stateside.

Studio Segers

A creative family business of two generations form a powerful symbiosis of experience and young creative talent. Based in Maaseik, Belgium.

14

Nils Van Der Celen

Nils Lives and works in Antwerp, Belgium. He graduated as a Master in Interior Architecture in 2008 at the Henry Van de Velde Institute in Antwerp and in 2009 at the Scuola Politecnico di Milano.

Deevie Vermetten

Deevie is the driving force behind his design label Atelier Belge. Many years of wood crafting carved a true designer with solid field experience.

*SIXINCH® is more than furniture, it's a lifestyle.

The ability to create unique workspaces while maintaining harmony in the workplace is what drives the SIXINCH acoustic initiative. Our acoustical screens, wall panels, and ceiling treatments allow colleagues the ability to openly communicate while maintaining necessary privacy and absorbing unwanted sound.

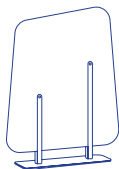

Beyond acoustical value and unique design aesthetics, our acoustical products are easily movable, mountable, and customizable. Add flair and function to any space with SIXINCH acoustics!

LIGHTING

299

Koncept was founded in 2002 to design and develop innovative products for home and business.

Not only have consumers embraced Koncept's lighting for home and office, but these designs have gained national and international attention. All Koncept task lights are LED UL certified.

Koncept's lighting offers more than 3 lighting levels that are easily adjustable and produce more than 50,000 hours of light.

Koncept's goal remains as it started: Design innovative products that set high standards in the industry and more importantly, make your life safer, simpler and greener.

ACCESSORIES

Shown Above: Draplin Design Co. Founder Aaron Draplin with Bubbles Featuring His Designs

**Introducing SIXINCH® Wrapz -
A creative way to infuse your
design into contract furniture.**

Wrap In Style

A man from the Midwest, Aaron Draplin started his associate degree at Northwestern Michigan College. At 19 he moved to Bend, Oregon to pursue his career in graphic design. In April 2000, he accepted an art director position at SNOWBOARDER magazine. In 2002, he became a senior designer at Cinco Design Office of Portland. His clients have included Nike, Burton Snowboards, Esquire, Red Wing, Ford Motor Company and the Obama Administration.

Draplin has been featured on TED Talks and talks at Google. In 2019 he designed the Star Ribbon, a US postal stamp. Aaron is the co-founder and designer for the well-known Field Notes brand. In 2004, Aaron started his own firm, the Draplin Design Company, and has solidified himself as one of the greatest in the graphic design world.

323

WRAPZ

324

We Design Custom Seating Solutions.

Custom furniture is a touchy topic for most in the industry. With our FlexPlus™ coated foam and custom upholstery capabilities, we offer the ability to design custom seating and benching to fit most spaces. We've created everything from small stadium seat pads to fully padded rooms. If you have a need, we'll work with you to come up with a solution that works best for your budget and space.

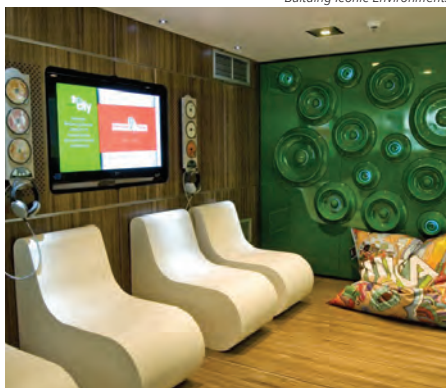

327

CUSTOM

328

330

FlexPlus™ **Coating**

FlexPlus™ coating provides options beyond traditional upholstery and is the brand's key differentiator. FlexPlus is made up of three layers; polyurethane primer, polyurethane reactor (A/B), and color coat. The end product is rated for high-traffic areas and is 100% waterproof – use it indoor or outdoor!

Molded PE

When you need a material capable of withstanding anything the environment can throw at you, look no further than Molded PE. Fully heat and UV stabilized, our Molded PE products won't warp or crack under extreme conditions. Have a high impact environment? Molded PE can take it - all while being easy to pick up and move.

Accessorize your Molded PE piece by adding a Remote Controlled LED Lighting kit. Our kits are engineered to keep exterior and interior use in mind. Glowing Rocky Chairs poolside at night? Yes please!

333

PET Felt

The ability to create unique workspaces while maintaining harmony in the workplace is what drives the SIXINCH acoustic initiative. Our acoustical screens, wall panels, and ceiling treatments allow colleagues the ability to openly communicate while maintaining privacy and absorbing unwanted sound. Beyond acoustical value and amazing designs, our acoustical products are easily movable, mountable and customizable. The felt panels are ½" thick, offered in 7 standard colors, and absorb sound by more than 0.8 in the range of 125~4000 Hz. Add flair and function to any space with SIXINCH screens!

334

Sound Absorption

Coefficient is more than 0.8 in the range of 125 ~ 4000 Hz, making sound better and ideal for high demand acoustic installations

Fire Retardant

Passes ASTM fire retardant test done by SGS, resulting in a Class A specification

Environmental

Reaches national level EO
Flexible and soft, will not fragment

Physical

Heat preservation qualities
Flexible, Wear Resistant, Impact Resistant,
Tear Resistant
Widely used in places requiring special requirements for the wall

Decorative

Hand selected color panels that can be applied to create different patterns easily

335

FINISHES

336

Upholstery

Extensively trained and highly skilled, our thread artisans pour unparalleled craftsmanship and love into each product we produce. With our wide range of abilities and offerings we challenge you to find a better manufacturer. We have been upholstering for 30+ years with the highest standard of quality and process.

Working with your own fabric? No problem, we specialize in material flexibility. Choose your path and let us assist you as a creative and manufacturing partner.

337

Quilting Patterns

Add a unique element to our upholstered furniture with one of our (4) standard quilting patterns. Choose from color matching or contrasting threads. Looking for something a little more extreme? We also feature (7) additional non-standard patterns. Our quilting patterns give you the opportunity to take ordinary and turn it upside down.

Materials

+ Care

FlexPlus™ Coating

UV Color Stability*

- SIXINCH UV pigments are color stable. Passing the 4 year climate test with the color red. Results: less glossy, no visible change in color.
- Atlas SUNTEST CPS+: Wavelength range 55 - 765 W/m, 10 cycles, 20 hour radiation test. Results: no change
- QUV Accelerated Weathering Tester: 4 days, UV radiation, humidity – classification 0. Results: no change

Following products have been tested on FlexPlus™ Hand cream, Sunscreen Lotion – SPF 20, Lipstick – red 461, Foundation Creme – 108 honey beige, Olive oil. These products left no visible stains nor change in appearance.

Weather & Water Resistance*

- FlexPlus™ coating is weather and water resistant
- Cold test: Thermotron SE-300-2-2, temperature at -40° C, for a duration of 24 hours. Results: no change in flexibility or description.
- Damp Heat cycle test: 80hr. 10 cycles, -40°C to +85°C \ with humidity 50% RH
- Dry Heat Test: BINDER incubator world test: +80°C, for a duration of 24 hours. Results: no change.

Maintenance & Cleaning

- Storage advice: In order to keep your SIXINCH furniture in peak condition, keep furniture inside and dry during extreme weather conditions.
- Normal cleaning: use warm water with a mild detergent and a cotton cloth.
- Stains: use FlexPlus™ Stain Remover to remove or reduce staining.
- Remark: to avoid staining, immediately remove coffee, champagne, mayonnaise, red wine and other common stain agents.

Ecology

- In some cases, SIXINCH products can be repaired and re-coated, which can extend the length of usage.
- The foam itself is 100% recyclable.
- SIXINCH is committed to recycling waste and uses the latest manufacturing technologies.
- Packaging is done to the highest standards using recycled and recyclable materials.

Safety*

FlexPlus™ coating complies to the DIN EN71-3 standards for children's toys

Durability*

- Aging: BINDER incubator world test – coating description & flexibility
- Adhesion: Cross-cut tester ZCC 2080 – DIN / ISO 2409 n° T1079358
- Film Hardness Test: ISO 15184 Pencil Test – pass from 6B until 3B
- Scratch Test: hardness tester N° 5810 – pass from 1.00 N to 4.00 N (100 to 400 g)

* Based on European test results

Foam

SIXINCH uses only the highest quality of polyurethane foam from the best suppliers in this field.

All foams are produced in the United States.

Foam: 27065 (CAL117 Flame Retardant)

Density rating: 2.70 lb/ft3

ILD rating: 65

Stain + Repair

Cleaning

We recommend Clorox Clean Cleaner + Bleach. For best results apply immediately.

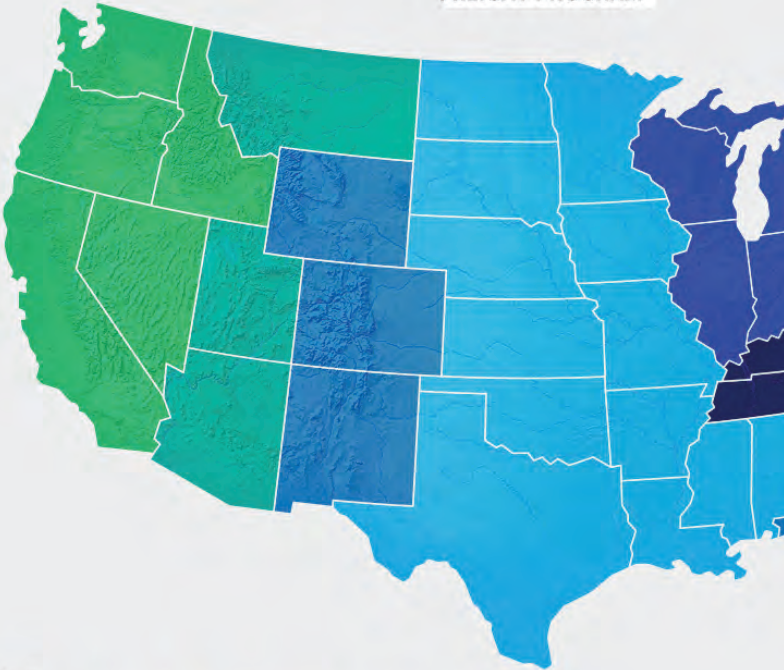

Touch-Up

Touch-Up kits are available for all coated products. Each kit is assembled to match your specific need.

Creased Foam Repair

We recommend using a heat gun to help pop out creased corners.

Freight Program

SIXINCH offers an optional shipping and handling program. Delivery is via common carrier or LTL Truck. Shipping and handling charges are pre-calculated and prepaid by SIXINCH and added to the original invoice at the time of order. This optional shipping and handling program enables the purchaser to determine shipping and handling charges when ordering and provides the purchaser with one invoice for both shipping and handling charges, and the SIXINCH product.

Charges

Shipping and handling charges are for normal delivery only and do not include inside delivery, installation, uncartoning or removal of cartons. Insurance is left at the carriers standard furniture rate which is usually equal to \$1 per pound (Not the value of the product). If you require a fully insured shipment, you must call for a quote.

A request for call prior to delivery is an additional \$25. Additional charges will be determined on a per shipment basis. Should additional charges be incurred by SIXINCH due to delivery issues (non-dock, re-delivery, etc.) after initial billing, the customer may be liable for those additional charges. Please indicate special delivery instructions with your order. For shipments outside the Continental US, please contact SIXINCH for product, freight and crating information – (855) 577-2417 or email support@sixinch.us.

How To Use

Merchandise is shipped FOB origin, freight prepaid and charge back to one destination. Title of goods transfers to buyer when merchandise leaves SIXINCH's dock, and any subsequent freight damage and all freight claims are the responsibility of the purchaser or consignee to report to the carrier promptly upon receipt and to settle with the carrier.

SIXINCH reserves the right to change or discontinue this program at anytime. Visit sixinchusa.com for latest program information.
